

CSR PROJECT BY COMPANIES

Project Title

CSR Projects by Companies – Data Analysis Project

A data analysis project focused on Corporate Social Responsibility (CSR) projects carried out by companies across different states and districts in India.

Project Description

This project analyses a CSR projects dataset containing information about companies, project names, development sectors, geographic locations, company classification, listing status, project outlay, and actual spending.

The objective is to organize, explore, and understand CSR investment patterns and identify useful insights from the available data.

Version History

Version	Date	Changes
1.0	September 2026	Initial project documentation created for the CSR Projects by Companies dataset.
1.1	September 2026	Dataset summary and project objectives documented.

License

This documentation is intended for educational and analytical purposes. The underlying dataset should be used according to the license and usage conditions of its original data provider.

Users should verify the source license before redistributing the dataset or derived materials.

Acknowledgments

I would like to acknowledge the original data provider for making the CSR project information available for analysis and learning.

I also acknowledge the tools and technologies used for data preparation and documentation, including Python, Power BI for interactive dashboard development
